

## EAST OF SCOTLAND RELAYS

At St. Andrews, November 7th

Edinburgh Southern Harriers outpaced the opposition in the East of Scotland relay, occupying the first three places and retaining their title. Thirty-one teams completed the 10 mile course over grass and stubble with sharp bends in four laps of 2½M each. Overhead conditions were reasonably good for the time of year, especially after a week of gales and torrents of rain. Adrian Weatherhead (Octavians) recorded the fastest time of 11.13 when leading on the first leg. Then it was all Edinburgh Southern.
